

NATIVE INSTINCT

Your Mission Partner

ABOUT US

Native Instinct LLC ("NI") was founded in 2017 by US Army Veterans. The mission of the company is to provide unparalleled support and services to local, state, and federal agencies.

To date, Native Instinct has completed over 380 contracts, totaling over \$34M in mission-critical products delivered and services supported to a wide array of US Federal, State, and Local Agencies.

The strength of the company lies within the team members of the NI team. NI is a **Department of Labor Platinum - Level "Hire Vets Medallion" Awardee** that proudly employs Veterans serving their "next mission."

Through employee nominations - NI supports charitable organizations globally with a 10% tithe donated every year to a wide variety of worthy causes. To date we've contributed over \$280k to worthy causes!

WHY US

Native Instinct is your Mission Partner for your most critical program initiatives. We pride ourselves in standing right next to our customers as they face the most pressing challenges of their programs - regardless whether that mission is deploying a 10 acre COVID Vaccination site (2021), supporting a nationwide 5 year equipment lease (2019-present), or just delivering the equipment your team needs to get the job done.

We exceed the competition through highly effective communication, detailed planning, and precision execution of our missions.

We are more than a reseller - we provide white-glove delivery in sales, leasing, and service requirements.
